

## Curriculum Vitae – Angelina Pico

My name is Angelina, and I grew up in Geneva. My journey into the world of movement began in my father's garage, where the rhythmic hum of engines and machinery inspired me to explore movement in all its forms.

My fascination with the art of movement first led me to rhythmic gymnastics. However, it is through dance that I found my way. Starting with ballet, I quickly turned to the raw expressivity of contemporary dance.

It was during this exploration that I discovered improvisation - a concept that at first seemed intimidating. Yet as I delved deeper, I felt an intense connection between myself and the art of spontaneous movement. What began as a challenge quickly became a liberating necessity.
